INDEX OF SUBJECTS

Acute local anaphylactic inflammation of the lungs. (*Cannon, Walsh and Marshall:* September) 777

Acute necrotizing arteritis, aortitis, and auriculitis following uranium nitrate injury in dogs with altered plasma proteins. (*Holman:* May, 450†; May) 359

Adenocarcinoma — Histogenesis of experimental . . . of the small intestine in mice. (*Stewart and Lorenz:* July) 623*

Adenocarcinomas — The treatment of spontaneous breast . . . in mice with extracts of spleen or yeast. (*Lewisohn, Leuchtenberger, Leuchtenberger and Laszlo:* March) 251

Adenofibroma — Effect of dibenzanthracene on transplantable mammary . . . of the white rat. (*Davis, Murphy and Emge:* January) 93

Adrenal gland — Degeneration of the adrenal cortex produced by germanin. (*Humphreys and Donaldson:* September) 767

Age factor in active immunization against whooping cough. (*Sauer:* September) 719

Alterations in nuclear viscosity during experimental carcinogenesis determined by ultracentrifugation. (*Cowdry and Paletta:* May) 335

Amyloidosis — Some factors in the development, localization and reabsorption of experimental . . . in the rabbit. (*Dick and Leiter:* September) 741

Anaphylaxis — Acute local anaphylactic inflammation of the lungs. (*Cannon, Walsh and Marshall:* September) 777

—— Peripheral vascular reactions in anaphylactic shock of the mouse. (*McMaster:* May) . . . . . 457†

Anemia — Comparison of hemoglobin production in experimental . . . of severe and moderate degree. (*Robscheit-Robbins:* May) . . 462†

Anoxemia, cerebral — The relative susceptibility of the synaptic terminals and of the perikaryon to arrest of the circulation of the brain. (*Kabat and Schadewald:* November) 833

Anoxia — Morphologic appearance of cerebral . . . (*Steiner:* July) . 639*

Anterior and posterior rhachischisis. (*Dodds:* November) . . 861

Anti-anemic principles — The influence of active and inactive . . . upon the size of the erythrocytes of opossums (*Didelphis virginiana*) in the maternal pouch. (*Stasney and Burns:* May) . . 466†

Antibody — Distinct types of . . . in the blood of rabbits carrying the transplanted V2 carcinoma. (*Kidd and Friedewald:* May) . . 453†

—— The titration of traces of . . . : a technic using maximal serum proportions with secondary induction of aggregation. (*Lund:* July) 636*

Antigenic relationship of alcohol-soluble substances of corpus luteum to those of testis and brain. (*Lewis:* September) . . . 725

* Abstract of paper presented at the meeting of The American Association of Pathologists and Bacteriologists held at New York City, April 10 and 11, 1941.

†Abstract of paper presented at the meeting of The American Society for Experimental Pathology held at Chicago, Illinois, April 17, 18 and 19, 1941.

"Anti-renin" and other evidences of tolerance to the various substances contained in extracts of kidney. (*Mylon, Katzenstein and Winternitz:* July) 622*

Appendiceal oxyuriasis. Its incidence and relationship to appendicitis. (*Ashburn:* November) 841

Appendix — The physiological and pharmacological behavior of the human . . . (*Dennis:* May) . . . . . 443†

Arc welding — The pathology of shielded . . . (*von Haam and Groom:* July) 591*

Arteries — Acute necrotizing arteritis, aortitis, and auriculitis following uranium nitrate injury in dogs with altered plasma proteins. (*Holman:* May, 450†; May) 359

—— Observations on the distribution of experimental atheromas in the . . . of rabbits. (*Wilens:* July) 640*

—— The pathogenesis of arterial atrophy. (*Moritz:* July) 597*

Arteriosclerosis — Blood phospholipid changes in experimental cholesterol . . . (*Bollman and Flock:* May) . . . . . 439†

Arthritis — The influence of various types of immunization upon the pathogenesis of experimental . . . (*Angevine:* May) . . . . 437†

—— The pathology of the joint lesions in patients with psoriasis and chronic . . . (*Bennett, Zeller and Bauer:* July) 599*

Arthritis deformans — The pathology of . . . (*Goldberg:* July) . . 598*

Aschoff bodies — Cardiac lesions resembling . . . in mice. (*Lenke and Loewe:* November) 857

Aschoff nodule — The relation of the "myocardial reticulocyte" to the . . . (*Clawson:* July) 597*

Atropine — The effect of . . . and pilocarpine upon the sphincter of Oddi in human subjects. (*Bergh:* May) . . . . . 439†

Bacterial localization in the kidneys. (*Asher and Sokol:* March) .. 273

Bacteriogenic hemagglutination. (*Davidsohn and Toharsky:* May) 443†

Bacteriophage — Evidence of serological heterogeneity of polyvalent "pure line" . . . (*Kalmanson and Bronfenbrenner:* May) . . . . 452†

Bartonella — "Interference" in mixed infections of . . . and eperythrozoon in mice. (*Tyzzer:* March) 141

Behavior of cellular proteinases (cathepsins) in experimental tuberculosis of rabbits. (*Weiss:* May) . . . . . 468†

Benzanthracene — Multiple skin tumors in mice following a single painting with 9:10 dimethyl-1:2 . . . (*Law:* November) . . . 827

Blastomyces dermatitidis — Tissue reactions to . . . and to its phosphatide and polysaccharide fractions in animals. (*Baker:* May) 437†

Blastomycosis: spread and tissue reaction in the human. (*Baker:* July) 631*

Blood — Production of elongated (pencil) erythrocytes in chronic hemorrhage. (*Isaacs and Rosenman:* May) . . . . . 451†

—— Studies of the potentialities of normal and pathological human monocytes *in vitro.* (*Houghton:* May) . . . . . 450†

—— The significance of glucose and non-glucose-reducing substances in postmortem . . . (*Hill:* May) . . . . . 449†

Blood phospholipid changes in experimental cholesterol arteriosclerosis. (*Bollman and Flock:* May) . . . . . 439†

Blood pressure — Effects of hypoproteinemia on . . . in normal and hypertensive dogs. (*Erickson:* May) . . . . . 444†

Bone — Effect of the pituitary growth hormone on the epiphyseal disk of the tibia of the rat. (*Ray, Evans and Becks:* July) 509

—— Osseous findings in chronic renal insufficiency in adults. (*Ginzler and Jaffe:* May) 293

—— The nature of "solitary or eosinophilic granuloma" of bone. (*Farber:* July) 625*

Bone marrow — Lesion produced in the . . . by injection of specific antibodies. (*Nettleship:* May) . . . . . 459†

—— Necrosis of the . . . with fat embolism in sickle cell anemia. (*Wade and Stevenson:* January) 47

Bones and joints — Effects of syngenesiotransplants and of extracts of the anterior lobe of the bovine hypophysis on the age changes in the long . . . of mice. (*Silberberg and Silberberg:* March) . . 189

Brain — Morphologic appearance of cerebral anoxia. (*Steiner:* July) 639*

—— Phagocytic activity of the oligodendroglia and amphicytes in the . . . , spinal cord, and semilunar ganglion of the mouse during inanition. (*Andrew:* May) 421

—— Structure of the small cerebral arteries in hypertension. (*Baker:* January) 39

—— The relative susceptibility of the synaptic terminals and of the perikaryon to arrest of the circulation of the . . . (*Kabat and Schadewald:* November) 833

Brain changes in pertussis. (*Dolgopol:* July) 633*

Breast — Lobular carcinoma *in situ*. A rare form of mammary cancer. (*Foote and Stewart:* July, 629*; July) 491

—— Metastases of primary carcinoma of the . . . (*Saphir:* July) . 640*

Bronchiectasis — Ligation of the pulmonary artery: its relation to pulmonary atelectasis, pulmonary cirrhosis and . . . (*Tannenberg:* July) 594*

Brown-Pearce epithelioma — The effect of insulin and insulin plus thyroxin on the metastasis of the . . . (*Ryer and Murlin:* May) 463†

Calculi — Occurrence of urinary tract . . . in inbred strain (C_3H) of mice treated with estrogen: further observations. (*Schenken, Burns and McCord:* July) 589*

Cancer — Heredity as determining the type and site of . . . and the age at which it occurs. (*Slye:* September) 655

—— The non-saponifiable lipid fraction of liver from cancerous and non-cancerous persons. (*Steiner:* May, 467†; September) . 667

Carcinogenesis — Evidence for different mechanisms in . . . by hydrocarbons and ultraviolet irradiation. (*Rusch and Kline:* May) 463†

—— Morbid anatomy of induced tumors of the forestomach in mice following oral administration of carcinogen. (*Stewart and Lorenz:* May) . . . . . 467†

Carcinoma — Distinct types of antibody in the blood of rabbits carrying the transplanted V2 . . . (*Kidd and Friedewald:* May) . . 453†

—— Early cancer of the gastro-intestinal tract. (*MacCarty:* July) . 630*

—— Histological changes produced in oral squamous cell epitheliomas by fractionated external irradiation. (*Hall and Friedman:* July) 625*

—— Lobular . . . *in situ*. A rare form of mammary cancer. (*Foote and Stewart:* July, 629*; July) 491
—— Metastases of primary . . . of the breast. (*Saphir:* July) . . 640*
Carcinoma of the bronchus — Epithelial metaplasia in congenital cystic disease of the lung. Its possible relation to . . . (*Womack and Graham:* September) 645
Carcinoma of ceruminous gland. (*Warren and Gates:* July, 640*; November) 821
Carcinoma of the parathyroid gland. (*Meyer and Ragins:* July) 637*
Cardiac lesions resembling Aschoff bodies in mice. (*Lenke and Loewe:* November) 857
Cartilage — A quantitative study of reversible stabilization of polysaccharide in dyed . . . (*Hass:* July) 589*
—— Studies of . . . : I. Some effects of media pH 4–12 on the composition of cartilage. (*Hass and Garthwaite:* May) . . . 448†
Cathepsins — The behavior of cellular proteinases (. . .) in experimental tuberculosis of rabbits. (*Weiss:* May) . . . . . 468†
Cavities in the silicotic lung. A pathological study with clinical correlation. (*Vorwald:* September) 709
Celiac syndrome — The relation of the pancreas to the . . . (*Farber and Maddock:* May) . . . . . 445†
Central nervous system irritation following injection of testicle extracts. (*Winternitz, Mylon and Katzenstein:* July) 642*
Cephalic malformations — The meteorogenesis of . . . (*Petersen and Mayne:* July) 638*
Cerebral arteries — Structure of the small . . . in hypertension. (*Baker:* January) 39
Certain physiological differences between shock and hemorrhage. (*Morgan, Lieber and McGrew:* July) 604*
Certain specific and immunopathologic features of tuberculosis. (*Corper:* September) 681
Ceruminous gland — Carcinoma of . . . (*Warren and Gates:* July, 640*; November) 821
Changes in the incisor teeth of albino rats with vitamin A deficiency and the effects of replacement therapy. (*Schour, Hoffman and Smith:* July) 529
Chastek paralysis — A vitamin B_1 deficiency of foxes produced by feeding whole fish. (*Green:* July) 588*
Chick embryos — Infection of normal and passively immunized . . . with *Corynebacterium diphtheriae*. (*Cromartie:* May) . . . 411
—— Observations on the infection of . . . with *B. tularense, Brucella* and *P. pestis*. (*Buddingh and Womack:* May) . . . . . 441†
Cholesterol arteriosclerosis — Blood phospholipid changes in experimental . . . (*Bollman and Flock:* May) . . . . . 439†
Chorio-allantoic membrane of the developing chick as a medium for the cultivation and histopathologic study of pathogenic fungi. (*Moore:* January) 103
Chronic portal occlusion with aneurysm of splenic artery and carcinoma of liver (hepatoma). (*Bosse and Strang:* July) . . 631*

Circumstances and postmortem findings, especially skin lesions, in accidental electrocution. (*Helpern and Strassmann:* July) . 592*

Cirrhosis — Effects of dietary yeast on developing and healing carbon tetrachloride . . . in the rat. (*Post, Earle and Victor:* May) . 460†

Coagulation time of the blood and mural vascular lesions as determinants of thrombosis. (*Katzenstein, Winternitz and Mylon:* July) 594*

Coccidioidomycosis — A study of latent lesions of . . . correlated with coccidioidin skin tests. (*Butt and Hofman:* July) 579*

Comparative experimental studies of 200 kilovolt and 1000 kilovolt roentgen rays. III. The biologic effect on the skin of the albino rat. (*Gall, Lingley and Hilcken:* May) 319

Comparison of hemoglobin production in experimental anemia of severe and moderate degree. (*Robscheit-Robbins:* May) . . . 462†

Complement-fixation test in the diagnosis of some types of human encephalitis. (*Casals and Palacios:* July) 575*

Congenital nodular glycogenic degeneration of the myocardium. (*Olsen and Cooper:* January) 125

Corpus luteum — The antigenic relationship of alcohol-soluble substances of . . . to those of testis and brain. (*Lewis:* September) . 725

Correlation between anatomical changes and the allergic state in tuberculous guinea pigs. (*Woodruff, Willis and Kelly:* July) . . 575*

Corynebacterium diphtheriae — Infection of normal and passively immunized chick embryos with . . . (*Cromartie:* May) 411

Cystic disease of the lung — Epithelial metaplasia in congenital . . . Its possible relation to carcinoma of the bronchus. (*Womack and Graham:* September) 645

Cystic fibrosis of pancreas. (*Erb:* July) 634*

Cystine — Influence of diet on liver lesions caused by excess dietary . . . (*Earle and Victor:* May) . . . . . 444†

Cytologic response of rats and mice to a strain of greening streptococci. (*Gross, Cooper and Phillips:* May) 377

Degenerate versus multipolar neurons in sensory ganglia. (*Truex:* March) 211

Degeneration of the adrenal cortex produced by germanin. (*Humphreys and Donaldson:* September) 767

Description of specimens of pellagra. (*Moore, Spies, Cooper and Goldblatt:* July) 585*

Detection of mild or subclinical scurvy. (*Rinehart:* May) . . 461†

Development of the agent of lymphogranuloma venereum in the yolk sac of the chicken embryo. (*Rake, Jones and Shaffer:* May) 460†

Diabetes — Histological study of trophic effects of diabetogenic anterior pituitary extracts and their relation to the pathogenesis of . . . (*Ham and Haist:* November) 787

—— On the mechanism of enhanced . . . with inflammation. (*Menkin:* May) . . . . . 458†

—— The neuro-insular complex of the pancreas: its possible rôle in . . . (*Simard:* July) 590*

Dibenzanthracene — Effect of . . . on transplantable mammary adenofibroma of the white rat. (*Davis, Murphy and Emge:* January) 93

Diethylstilboestrol — Endometrial response to . . . in radium-induced menopause. (*Grauer, Beall and Wilson:* January) 87
Diffusion of some animal viruses. (*Bourdillon:* May) . . . . 440†
Dimethylaminoazobenzene — The non-neoplastic hepatic changes in rats fed . . . with special reference to pigment deposits. (*Edwards and White:* May) . . . . . 444†
Distinct types of antibody in the blood of rabbits carrying the transplanted V2 carcinoma. (*Kidd and Friedewald:* May) . . 453†
Distribution of vitamin A in ovaries and ovarian tumors. (*Popper and Ragins:* July) 587*
Disuse atrophy of renal arteries. (*Bell:* July) 614*

Early cancer of the gastro-intestinal tract. (*MacCarty:* July) . . 630*
Effect of atropine and pilocarpine upon the sphincter of Oddi in human subjects. (*Bergh:* May) . . . . . 439†
Effect of dibenzanthracene on transplantable mammary adenofibroma of the white rat. (*Davis, Murphy and Emge:* January) . 93
Effect of glycogen on growth of Walker 256 tumor in rats. (*Ball:* May) . . . . . 438†
Effect of hepatectomy, and abdominal evisceration with and without hepatectomy on the serum phosphatase of the dog. (*Maddock, Trimble, Jensen and Appleby:* May) . . . . . 456†
Effect of insulin and insulin plus thyroxin on the metastasis of the Brown-Pearce epithelioma. (*Ryer and Murlin:* May) . . . . 463†
Effect of pancreatic achylia on vitamin K absorption and prothrombin time. (*Sproul and Sanders:* July) 587*
Effect of the pituitary growth hormone on the epiphyseal disk of the tibia of the rat. (*Ray, Evans and Becks:* July) 509
Effective renal blood flow, filtration rate and functional excretory mass in essential hypertension; diodrast and insulin clearances. (*Foa, Woods and Peet:* May) . . . . . 446†
Effects of the continued administration of sulfathiazole and sulfapyridine to monkeys. (*Climenko and Wright:* July) . . 633*
Effects of dietary yeast on developing and healing carbon tetrachloride cirrhosis in the rat. (*Post, Earle and Victor:* May) . 460†
Effects of hypoproteinemia on blood pressure in normal and hypertensive dogs. (*Erickson:* May) . . . . . 444†
Effects of long-continued ingestion of sodium phosphate upon the parathyroids, kidneys and bones of mature rats. (*Saxton and Ellis:* July) 590*
Effects of syngenesiotransplants and of extracts of the anterior lobe of the bovine hypophysis on the age changes in the long bones and joints of mice. (*Silberberg and Silberberg:* March) . 189
Electric shock: importance of path, distribution and density of current in determining symptoms and pathology. (*Alexander and Weeks:* July) 601*
Electrocution — Circumstances and postmortem findings, especially skin lesions, in accidental . . . (*Helpern and Strassman:* July) . 592*
Electron micrography of purified viruses. (*Stanley and Anderson:* July) 576*

Electron microscope — The structure of bacteria as shown by the ... (*Mudd, Anderson, Polevitsky and Morton:* July) 576*

Emboli of brain tissue in the fetal lungs. (*Gruenwald:* November) 879

Encephalitis — Isolation of the virus of herpes simplex and the demonstration of intranuclear inclusions in a case of acute ... (*Smith, Lennette and Reames:* January) 55

—— The complement-fixation test in the diagnosis of some types of human ... (*Casals and Palacios:* July) 575*

Encephalomyelitis — Equine ... in man. (*Adler:* May) 407

—— The histopathology of experimental and spontaneous ... of mice (Theiler's disease). (*Olitsky and Schlesinger:* July) 584*

Encephalomyelitis virus — Rate of disappearance of the eastern equine ... from the blood of rabbits following the injection of India ink. (*Kempf, Pierce and Soule:* May) . . . . . 453†

Endometrial response to diethylstilboestrol in radium-induced menopause. (*Grauer, Beall and Wilson:* January) 87

Endothelial myeloma (Ewing's tumor of bone). (*Gharpure:* July) 503

Environmental factors influencing fever in pulmonary tuberculosis: a statistical study. (*Howe and Mayne:* July) 635*

Eosinophilic granuloma — The nature of "solitary or ..." of bone. (*Farber:* July) 625*

Eperythrozoon — "Interference" in mixed infections of bartonella and ... in mice. (*Tyzzer:* March) 141

Epithelial metaplasia in congenital cystic disease of the lung. Its possible relation to carcinoma of the bronchus. (*Womack and Graham:* September) 645

Epithelioma of lip in catfish. I. Pathology of spontaneous tumors. II. Growth of intracorneal transplants. (*Lucké and Schlumberger:* May) . . . . . 455†

Equine encephalomyelitis in man. (*Adler:* May) 407

Ergot — Neurofibromatous tumors of the ears of rats produced by prolonged feeding of crude ... (*Nelson, Fitzhugh and Morris:* July) 624*

Erythrocyte — Relation of age to the susceptibility of the ... to hypotonic saline solution. (*Cruz:* May) . . . . . 442†

Erythrocytes — Production of elongated (pencil) ... in chronic hemorrhage. (*Isaacs and Rosenman:* May) . . . . . 451†

Estrogen — Occurrence of urinary tract calculi in inbred strain (C_3H) of mice treated with ... : further observations. (*Schenken, Burns and McCord:* July) 589*

Evidence for different mechanisms in carcinogenesis by hydrocarbons and ultraviolet irradiation. (*Rusch and Kline:* May) . 463†

Evidence of serological heterogeneity of polyvalent "pure line" bacteriophage. (*Kalmanson and Bronfenbrenner:* May) . . . 452†

Ewing's tumor — Endothelial myeloma (... of bone). (*Gharpure:* July) 503

—— Histogenesis of ... (*Foote and Anderson:* July) 497

Exogenous tumors of the thyroid gland. (*Mayo and Schlicke:* March) 283

Experimental colloid droplets in renal epithelium. (*Johnson and Smetana:* July) 635*

Experimental hypertension and pregnancy in dogs. (*Dawson, Cressman and Blalock:* January) 31

Experimental measles. The lymphoid tissues of animals inoculated with the virus of human measles. (*Gordon and Knighton:* March) 165

Experimental ocular tuberculosis in normal and immunized rabbits. (*Angevine and Huntington:* March) 155

Experimental poliomyelitis in guinea pigs. (*Jungeblut and Sanders:* May) . . . . . 452†

Experimental squamous cell carcinoma of the forestomach in mice and the method of induction by oral administration of carcinogen. (*Lorenz and Stewart:* May) . . . . . 455†

Experimental staphylococcic pneumonia in rabbits. (*Gaspar:* July) 634*

Explantation as an aid to the study of kidney pathology. (*Allen and Youland:* May) . . . . . 437†

Extracts of spleen or yeast — The treatment of spontaneous breast adenocarcinomas in mice with . . . (*Lewisohn, Leuchtenberger, Leuchtenberger and Laszlo:* March) 251

Eye — Experimental ocular tuberculosis in normal and immunized rabbits. (*Angevine and Huntington:* March) 155

Factors regulating the absorption of iron in dogs as measured with the radioactive isotope. (*Balfour:* May) . . . . . 438†

Fat embolism — Necrosis of the bone marrow with . . . in sickle cell anemia. (*Wade and Stevenson:* January) 47

Fate of tubercle bacilli phagocyted *in vivo* and *in vitro* by mononuclears derived from normal and immunized rabbits. (*Lurie:* July) 636*

Fatty changes in the glomeruli of the kidneys. (*Simonds and Lange:* May, 466†; September) 755

Fibromyxosarcomas — Primary . . . of the heart and pulmonary artery. (*Haythorn, Ray and Wolff:* March) 261

Foreign body giant cell granuloma of the spinal cord associated with spina bifida. (*Lichtenstein and Kirshbaum:* November) . 873

Functional activity of smooth muscle tumors of the uterus. (*Bryan and Warren:* May) . . . . . 441†

Functional structures in renal tumors. (*Schiller:* July) . . . 622*

Fungi — The chorio-allantoic membrane of the developing chick as a medium for the cultivation and histopathologic study of pathogenic . . . (*Moore:* January) 103

Further observations on a gastric secretory depressant factor in gastric juice. (*Brunschwig and Rasmussen:* May) . . . . . 440†

Gallstones — Variation in the composition of . . . simultaneously formed in the gallbladder. (*Phemister and Aronson:* September) 673

Ganglia — Degenerate versus multipolar neurons in sensory . . . (*Truex:* March) 211

Gastric acidity after various types of operation for ulcer in man. (*Lannin and Wangensteen:* May) . . . . . 454†

Gastric juice — Further observations on a gastric secretory depressant factor in . . . (*Brunschwig and Rasmussen:* May) . . . 440†

Gastric resection — Hyperthermia and death caused by a closed duodeno-jejunal loop after . . . ; prevention of the complication; experimental reproductions of the syndrome in the dog. (*Lynn, Hay and Wangensteen:* May) . . . . . 455†

Gastro-intestinal tract — Early cancer of the . . . (*MacCarty:* July) 630*

Germanin — Degeneration of the adrenal cortex produced by . . . (*Humphreys and Donaldson:* September) 767

Glioma retinae — The histogenesis of . . . Report of early case with review of literature. (*Ch'in:* November) 813

Glomerulonephritis of rats following the administration of sulfapyridine. (*Gross, Cooper and Morningstar:* July) 634*

Goormaghtigh cells — The morphological aspect of the . . . (juxtaglomerular apparatus) in the normal and diseased human kidney. (*Kaufmann:* July) 620*

Heart — Cardiac lesions resembling Aschoff bodies in mice. (*Lenke and Loewe:* November) 857

—— Congenital nodular glycogenic degeneration of the myocardium. (*Olsen and Cooper:* January) 125

—— Metastatic tumors of the myocardium. A review of sixteen cases. (*Ritchie:* July) 483

—— Primary fibromyxosarcomas of the . . . and pulmonary artery. (*Haythorn, Ray and Wolff:* March) 261

—— Rhabdomyomatosis of the . . . in a guinea pig. (*Hueper:* January) 121

—— Weight of the normal . . . in adult males. (*Rosahn:* July) . . 595*

Hemagglutination — Bacteriogenic . . . (*Davidsohn and Toharsky:* May) . . . . . 443†

Hepatoma — Chronic portal occlusion with aneurysm of splenic artery and carcinoma of liver (. . .). (*Bosse and Strang:* July) 631*

Heredity as determining the type and site of cancer and the age at which it occurs. (*Slye:* September) 655

Herpes simplex — Isolation of the virus of . . . and the demonstration of intranuclear inclusions in a case of acute encephalitis. (*Smith, Lennette and Reames:* January) 55

Histamine — Studies on the blood . . . in rabbits during hemorrhage, shock produced by manipulation of the intestines, and following the subcutaneous injection of histamine. (*Rose and Browne:* July) 606*

—— The production of gastric and duodenal ulcer in various animals by the intramuscular implantation of . . . in beeswax. (*Hay, Lynn and Wangensteen:* May) . . . . . 448†

Histochemical study of the distribution of alkaline phosphatase in various normal and neoplastic tissues. (*Kabat and Furth:* May) 303

Histogenesis of Ewing's tumor. (*Foote and Anderson:* July) . . 497

Histogenesis of experimental adenocarcinoma of the small intestine in mice. (*Stewart and Lorenz:* July) 623*

Histogenesis of glioma retinae. Report of early case with review of literature. (*Ch'in:* November) 813

Histologic changes in the skin of mice following radiation from mercury arc. (*Grady, Blum and Kirby-Smith:* May) . . . 446†

Histological changes produced in oral squamous cell epitheliomas by fractionated external irradiation. (*Hall and Friedman:* July. 625*

Histological study of trophic effects of diabetogenic anterior pituitary extracts and their relation to the pathogenesis of diabetes. (*Ham and Haist:* November) 787

Histopathology of experimental and spontaneous encephalomyelitis of mice (Theiler's disease). (*Olitsky and Schlesinger:* July) 584*

Histoplasmosis — The histopathology of . . . in man. (*Parsons:* July) 582*

Hypertension — Effective renal blood flow, filtration rate and functional excretory mass in essential . . .; diodrast and insulin clearances. (*Foa, Woods and Peet:* May) . . . . . 446†

—— Experimental . . . and pregnancy in dogs. (*Dawson, Cressman and Blalock:* January) 31

—— Renal biopsies from hypertensive patients. (*Castleman, Smithwick and Palmer:* July) 617*

—— Structure of the small cerebral arteries in . . . (*Baker:* January) 39

—— Unilateral renal atrophy and . . . (*Baggenstoss and Barker:* July) 630*

Hyperthermia and death caused by a closed duodeno-jejunal loop after gastric resection; prevention of the complication; experimental reproductions of the syndrome in the dog. (*Lynn, Hay and Wangensteen:* May) . . . . . 455†

Hypertrophic pulmonary osteo-arthropathy. A pathologic study of six cases. (*Gall and Bennett:* July) 600*

Hypoglycemia — The production of neuronal injury and necrosis with the virus of poliomyelitis in rabbits during insulin . . . (*Sandler:* January) 69

Hypophysis — Effects of syngenesiotransplants and of extracts of the anterior lobe of the bovine . . . on the age changes in the long bones and joints of mice. (*Silberberg and Silberberg:* March) . 189

Hypoproteinemia — Effects of . . . on blood pressure in normal and hypertensive dogs. (*Erickson:* May) . . . . . 444†

—— treated by protein digests by vein. (*Madden:* May) . . . . 456†

Hypothalamic stimulation — Neural and humoral responses from . . . in cat and monkey. (*Bender and Weinstein:* May) . . . . 438†

Immunization — The age factor in active . . . against whooping cough. (*Sauer:* September) 719

Inanition — Phagocytic activity of the oligodendroglia and amphicytes in the brain, spinal cord, and semilunar ganglion of the mouse during . . . (*Andrew:* May) 421

Infection of normal and passively immunized chick embryos with *Corynebacterium diphtheriae.* (*Cromartie:* May) . . . 411

Influence of active and inactive anti-anemic principles upon the size of the erythrocytes of opossums (*Didelphis virginiana*) in the maternal pouch. (*Stasney and Burns:* May) . . . . . 466†

Influence of breeding on susceptibility of white rats to transplantation of a methylcholanthrene sarcoma. (*Orbison, Davenport and Queen:* May) . . . . . 459†

Influence of the concentration of virus particles on infection with vaccinia. (*Sprunt:* May) . . . . . 466†

Influence of diet on liver lesions caused by excess dietary cystine. (*Earle and Victor:* May) . . . . . 444†

Influence of various types of immunization upon the pathogenesis of experimental arthritis. (*Angevine:* May) . . . . . 437†

Influenza A — A study of the relationship between the virus of . . . and filterable components of normal lungs. (*Chambers and Henle:* May) . . . . . 442†

Insulin-allergy — Studies on . . . (*Cannon and Marshall:* May) . 442†

"Interference" in mixed infections of bartonella and eperythrozoon in mice. (*Tyzzer:* March) 141

Intestine — Pathogenesis of intestinal radiation lesions. (*Friedman and Warren:* May) . . . . . 446†

Intracorneal transplants — Epithelioma of lip in catfish. I. Pathology of spontaneous tumors. II. Growth of . . . (*Lucké and Schlumberger:* May) . . . . . 455†

Intrinsic nerves of the immature human uterus. (*Brown and Hirsch:* September) 731

Iron — Factors regulating the absorption of . . . in dogs as measured with the radioactive isotope. (*Balfour:* May) . . . . . 438†

Irradiation — Histological changes produced in oral squamous cell epitheliomas by fractionated external . . . (*Hall and Friedman:* July) 625*

Isolation of "poliomyelitic" streptococci from the stool in acute epidemic poliomyelitis. (*Rosenow:* July) 641*

Isolation of the virus of herpes simplex and the demonstration of intranuclear inclusions in a case of acute encephalitis. (*Smith, Lennette and Reames:* January) 55

Kidney — "Anti-renin" and other evidences of tolerance to the various substances contained in extracts of . . . (*Mylon, Katzenstein and Winternitz:* July) 622*

—— Disuse atrophy of renal arteries. (*Bell:* July) 614*

—— Experimental colloid droplets in renal epithelium. (*Johnson and Smetana:* July) 635*

—— Explantation as an aid to the study of . . . pathology. (*Allen and Youland:* May) . . . . . 437†

—— Functional structures in renal tumors. (*Schiller:* July) . . . 622*

—— Osseous findings in chronic renal insufficiency in adults. (*Ginzler and Jaffe:* May) 293

—— Renal biopsies from hypertensive patients. (*Castleman, Smithwick and Palmer:* July) 617*

—— The morphological aspect of the Goormaghtigh cells (juxtaglomerular apparatus) in the normal and diseased human. . . . (*Kaufmann:* July) 620*

—— The occurrence of mitotic divisions in glomeruli in glomerulonephritis and malignant sclerosis. (*Hartz, van der Sar and van Meeteren:* July) 563

—— The rôle of potassium in the survival time after bilateral nephrectomy. (*Durlacher, Darrow and Winternitz:* July) . . . 614*

—— Unilateral renal atrophy and hypertension. (*Baggenstoss and Barker:* July) 630*

Kidneys — Bacterial localization in the . . . (*Asher and Sokol:* March) 273

—— Fatty changes in the glomeruli of the . . . (*Simonds and Lange:* May, 466†; September) 755

Leiomyoma — The functional activity of smooth muscle tumors of the uterus. (*Bryan and Warren:* May) . . . . . 441†

Lesion produced in the bone marrow by injection of specific antibodies. (*Nettleship:* May) . . . . . 459†

Leukocyte variations — Studies on leukocytosis. I. Hourly . . . of normal rabbits. (*Reifenstein, Ferguson and Weiskotten:* March) 219

Leukocytic response in experimental shock. (*Curphey and Ponder:* July) 602*

Leukocytosis — Studies on . . . II. Neutrophilic leukocytosis following intravenous injection of supernatant fluid from a sterile exudate (rabbit). (*Reifenstein, Ferguson and Weiskotten:* March) . . 233

Ligation of the pulmonary artery: its relation to pulmonary atelectasis, pulmonary cirrhosis and bronchiectasis. (*Tannenberg:* July) 594*

Liver — Effects of dietary yeast on developing and healing carbon tetrachloride cirrhosis in the rat. (*Post, Earle and Victor:* May) 460†

—— Influence of diet on . . . lesions caused by excess dietary cystine. (*Earle and Victor:* May) . . . . . 444†

—— The non-neoplastic hepatic changes in rats fed dimethylaminoazobenzene with special reference to pigment deposits. (*Edwards and White:* May) . . . . . 444†

—— The non-saponifiable lipid fraction of . . . from cancerous and non-cancerous persons. (*Steiner:* May, 467†; September) 667

Liver glycogen concentration following intravenous glucose administration and diet on the dog and man in the presence of liver injury. (*Ravdin, Vars, Thorgood and Schultz:* May) . . . . 461†

Lobular carcinoma in situ. A rare form of mammary cancer. (*Foote and Stewart:* July, 629*; July) 491

L-S soluble antigen of vaccinia. (*Shedlovsky and Smadel:* May) 464†

Lung — Cavities in the silicotic . . . A pathological study with clinical correlation. (*Vorwald:* September) 709

—— Epithelial metaplasia in congenital cystic disease of the . . . Its possible relation to carcinoma of the bronchus. (*Womack and Graham:* September) 645

Lungs — Acute local anaphylactic inflammation of the . . . (*Cannon, Walsh and Marshall:* September) 777

—— Emboli of brain tissue in the fetal . . . (*Gruenwald:* November) 879

Lymph nodes — Reticulum cell sarcoma of . . . (*Warren and Picena:* May) 385

Lymphogranuloma venereum — Soluble antigen in . . . (*Shaffer and Rake:* May) . . . . . 464†

—— The development of the agent of . . . in the yolk sac of the chicken embryo. (*Rake, Jones and Shaffer:* May) . . . . . 460†

Lymphomatosis — Sex hormones and . . . of fowls. (*Marine and Rosen:* May) . . . . . 456†

Lymph prothrombin. (*Walker and Brinkhous:* May) . . . . 468†

Macromolecular substances as disease-producing agents. (*Hueper:* May) . . . . . 451†

—— The treatment of shock by the intravenous administration of non-hematogenous . . . (*Hueper, Martin and Thompson:* July) . . 608*

Malaria — Some pathological aspects of human . . . (*Cannon:* July) 580*

Mallory, Frank Burr. (*Parker:* November) 785

Measles — Experimental . . . The lymphoid tissues of animals inoculated with the virus of human measles. (*Gordon and Knighton:* March) 165

Meat extractives and the nonprotein nitrogen of the blood. (*Mylon and Winternitz:* July) 637*

Mechanism of enhanced diabetes with inflammation. (*Menkin:* May) . . . . . 458†

Melanuria — Studies in . . . (*Rothman:* May) . . . . . 463†

Meninges — The nature of so-called angioblastic meningiomas — sclerosing hemangiomas of the . . . (*Bailey:* July) 625*

Mercury arc — Histologic changes in the skin of mice following radiation from . . . (*Grady, Blum and Kirby-Smith:* May) . . . 446†

Mesodermal mixed tumors of the body of the uterus. (*Liebow and Tennant:* January) 1

Metaplasia — Epithelial . . . in congenital cystic disease of the lung. Its possible relation to carcinoma of the bronchus. (*Womack and Graham:* September) 645

Metastases of primary carcinoma of the breast. (*Saphir:* July) 640*

Metastatic tumors of the myocardium. A review of sixteen cases. (*Ritchie:* July) 483

Meteorogenesis of cephalic malformations. (*Petersen and Mayne:* July) 638*

Method for titrating virulence of tubercle bacilli in mice. (*Gunn and Sheehy:* May) . . . . . 447†

Methylcholanthrene sarcoma — Influence of breeding on susceptibility of white rats to transplantation of a . . . (*Orbison, Davenport and Queen:* May) . . . . . 459†

Monocytes — Studies of the potentialities of normal and pathological human . . . *in vitro.* (*Houghton:* May) . . . . . 450†

Morbid anatomy of induced tumors of the forestomach in mice following oral administration of carcinogen. (*Stewart and Lorenz:* May) . . . . . 467†

Mordant preparing formaldehyde-fixed neuraxis tissue for phosphotungstic acid hematoxylin staining. (*Mullen and McCarter:* March) 289

Morphological aspect of the Goormaghtigh cells (juxtaglomerular apparatus) in the normal and diseased human kidney. (*Kaufmann:* July) 620*

Morphologic appearance of cerebral anoxia. (*Steiner:* July) . 639*

Morphologic changes in experimental shock. (*Lieber and Morgan:* July) 607*

Multiple skin tumors in mice following a single painting with 9:10 dimethyl-1:2 benzanthracene. (*Law:* November) 827

Muscular dystrophy in biliary fistula dogs; possible relationship to vitamin E deficiency. (*Brinkhous and Warner:* January) . . 81

"Myocardial reticulocyte" — The relation of the . . . to the Aschoff nodule. (*Clawson:* July) 597*

Myocardium — Congenital nodular glycogenic degeneration of the . . . (*Olsen and Cooper:* January) 125

Nature of so-called angioblastic meningiomas — sclerosing hemangiomas of the meninges. (*Bailey:* July) 625*

Nature of "solitary or eosinophilic granuloma" of bone. (*Farber:* July) 625*

Necrosis of the bone marrow with fat embolism in sickle cell anemia. (*Wade and Stevenson:* January) 47

Nervous system — Vitamin A deficiency and the central . . . (*Wolbach and Bessey:* July) 586*

Neural and humoral responses from hypothalamic stimulation in cat and monkey. (*Bender and Weinstein:* May) . . . . . 438†

Neuraxis tissue — A mordant preparing formaldehyde-fixed . . . for phosphotungstic acid hematoxylin staining. (*Mullen and McCarter:* March) 289

Neurofibromatous tumors of the ears of rats produced by prolonged feeding of crude ergot. (*Nelson, Fitzhugh and Morris:* July) 624*

Neuro-insular complex of the pancreas: its possible rôle in diabetes. (*Simard:* July) 590*

Neurons — Degenerate versus multipolar . . . in sensory ganglia. (*Truex:* March) 211

Non-neoplastic hepatic changes in rats fed dimethylaminoazobenzene with special reference to pigment deposits. (*Edwards and White:* May) . . . . . 444†

Non-saponifiable lipid fraction of liver from cancerous and noncancerous persons. (*Steiner:* May, 467†; September) . . . 667

Nonvirulent irradiated rabies vaccine. (*Webster and Casals:* July) 582*

Observations on the distribution of experimental atheromas in the arteries of rabbits. (*Wilens:* July) 640*

Observations on the infection of chick embryos with *B. tularense, Brucella* and *P. pestis.* (*Buddingh and Womack:* May) . . . 441†

Observations with differential stains on human islets of Langerhans. (*Gomori:* May) 395

Occurrence of mitotic divisions in glomeruli in glomerulonephritis and malignant sclerosis. (*Hartz, van der Sar and van Meeteren:* July) 563

Occurrence of urinary tract calculi in inbred strain (C_3H) of mice treated with estrogen: further observations. (*Schenken, Burns and McCord:* July) 589*

Oral administration of carcinogen — Experimental squamous cell carcinoma of the forestomach in mice and the method of induction by . . . (*Lorenz and Stewart:* May) . . . . . 455†

Osseous findings in chronic renal insufficiency in adults. (*Ginzler and Jaffe:* May) 293

Osteo-arthritis deformans of the temporomandibular joint. (*Bauer:* January) 129

Osteo-arthropathy — Hypertrophic pulmonary... A pathologic study of six cases. (*Gall and Bennett:* July) 600*

—— Pulmonary artery to left auricle anastomosis with hypertrophic... (*Mendlowitz and Leslie:* May) . . . . . 458†

Oxyuriasis — Appendiceal... Its incidence and relationship to appendicitis. (*Ashburn:* November) 841

Pancreas — Cystic fibrosis of... (*Erb:* July) 634*

—— Observations with differential stains on human islets of Langerhans. (*Gomori:* May) 395

—— The neuro-insular complex of the...: its possible rôle in diabetes. (*Simard:* July) 590*

—— The relation of the ... to the celiac syndrome. (*Farber and Maddock:* May) . . . . . 445†

Pantothenic acid deficiency — Pathological changes in the mouse due to... (*Lippincott and Morris:* July) 588*

Parasympathetic effects of phospholipids and erythrocytes. (*Shwartzman, Bender and Wachtel:* May) . . . . . 465†

Parathyroid gland — Carcinoma of the... (*Meyer and Ragins:* July) 637*

Parathyroids — Effects of long-continued ingestion of sodium phosphate upon the..., kidneys and bones of mature rats. (*Saxton and Ellis:* July) 590*

Pathogenesis and pathology of experimental type I pneumococcus pneumonia in the monkey. (*Loosli:* May) . . . . . 454†

Pathogenesis of arterial atrophy. (*Moritz:* July) 597*

Pathogenesis of intestinal radiation lesions. (*Friedman and Warren:* May) . . . . . 446†

Pathological changes in the mouse due to pantothenic acid deficiency. (*Lippincott and Morris:* July) 588*

Pathology of arthritis deformans. (*Goldberg:* July) 598*

Pathology of the joint lesions in patients with psoriasis and chronic arthritis. (*Bennett, Zeller and Bauer:* July) 599*

Pathology of shielded arc welding. (*von Haam and Groom:* July) 591*

Pellagra — Description of specimens of... (*Moore, Spies, Cooper and Goldblatt:* July) 585*

Peptic ulcer — Gastric acidity after various types of operation for ulcer in man. (*Lannin and Wangensteen:* May) . . . . . 454†

Pericarditis — Uremia and... Findings as they relate to hypertension. (*Baldauf and Ingersoll:* July) 615*

Peripheral vascular reactions in anaphylactic shock of the mouse. (*McMaster:* May) . . . . . 457†

Pertussis — Brain changes in... (*Dolgopol:* July) 633*

Phage-antiphage reaction — Quantitative aspects of the... (*Hershey and Bronfenbrenner:* May) . . . . . 449†

Phagocytic activity of the oligodendroglia and amphicytes in the brain, spinal cord, and semilunar ganglion of the mouse during inanition. (*Andrew:* May) 421

Phosphatase — A histochemical study of the distribution of alkaline... in various normal and neoplastic tissues. (*Kabat and Furth:* May) 303

—— The effect of hepatectomy, and abdominal evisceration with and without hepatectomy on the serum ... of the dog. (*Maddock, Trimble, Jensen and Appleby:* May) . . . . . 456†

Phosphotungstic acid hematoxylin staining — A mordant preparing formaldehyde-fixed neuraxis tissue for ... (*Mullen and McCarter:* March) 289

Physiological and pharmacological behavior of the human appendix. (*Dennis:* May) . . . . . 443†

Pilocarpine — The effect of atropine and ... upon the sphincter of Oddi in human subjects. (*Bergh:* May) . . . . . 439†

Pituitary — Effect of the ... growth hormone on the epiphyseal disk of the tibia of the rat. (*Ray, Evans and Becks:* July) . . . 509

Pituitary extracts — Histological study of trophic effects of diabetogenic anterior ... and their relation to the pathogenesis of diabetes. (*Ham and Haist:* November) 787

Plasma — Studies on the intravenous administration of bovine ... to man. (*Kremen, Hall, Koschnitzke, Stevens and Wangensteen:* May) . . . . . 454†

Plasma protein — Shock: ... building in emergencies as influenced by intravenous digests. (*Whipple:* July) 609*

Pneumococcus — The pathogenesis and pathology of experimental type I ... pneumonia in the monkey. (*Loosli:* May) . . . . 454†

Pneumonia — Experimental staphylococcic ... in rabbits. (*Gaspar:* July) 634*

Poliomyelitis — Experimental ... in guinea pigs. (*Jungeblut and Sanders:* May) . . . . . 452†

—— Studies on the relation of "neurotropic" streptococci to ... and its virus. (*Rosenow:* May) . . . . . 462†

—— The isolation of "poliomyelitic" streptococci from the stool in acute epidemic ... (*Rosenow:* July) 641*

—— The production of neuronal injury and necrosis with the virus of ... in rabbits during insulin hypoglycemia. (*Sandler:* January) 69

Polyneuritis — Visceral lesions in infectious ... (infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome, Landry's paralysis). (*Sabin and Aring:* July) 469

Pregnancy in dogs — Experimental hypertension and ... (*Dawson, Cressman and Blalock:* January) 31

Present incidence of tuberculous infection. (*Carnes:* July) . . 632*

Primary fibromyxosarcomas of the heart and pulmonary artery. (*Haythorn, Ray and Wolff:* March) 261

Production of antibodies in the popliteal lymph node of the rabbit. (*Ehrich and Harris:* July) 633*

Production of elongated (pencil) erythrocytes in chronic hemorrhage. (*Isaacs and Rosenman:* May) . . . . . 451†

Production of gastric and duodenal ulcer in various animals by the intramuscular implantation of histamine in beeswax. (*Hay, Lynn and Wangensteen:* May) . . . . . 448†

Production of neuronal injury and necrosis with the virus of poliomyelitis in rabbits during insulin hypoglycemia. (*Sandler:* January) 69

Promin — The treatment of experimental tuberculosis with . . . (sodium salt of P.P′ diamino-diphenyl-sulfone-N,N′-dextrose sulfonate). (*Feldman, Hinshaw and Moses:* July) 578*

Prothrombin — Effect of pancreatic achylia on vitamin K absorption and . . . time. (*Sproul and Sanders:* July) 587*

—— Lymph . . . (*Walker and Brinkhous:* May) . . . . . 468†

Psoriasis — The pathology of the joint lesions in patients with . . . and chronic arthritis. (*Bennett, Zeller and Bauer:* July) . . . 599*

Pulmonary artery to left auricle anastomosis with hypertrophic osteoarthropathy. (*Mendlowitz and Leslie:* May) . . . . 458†

Quantitative aspects of the phage-antiphage reaction. (*Hershey and Bronfenbrenner:* May) . . . . . 449†

Quantitative study of reversible stabilization of polysaccharide in dyed cartilage. (*Hass:* July) 589*

Rabies — A nonvirulent irradiated . . . vaccine. (*Webster and Casals:* July) 582*

—— A study of chick-embryo-adapted . . . virus. (*Dawson:* March) 177

Rare malignant tumor of the thyroid with postmortem findings. (*Polayes:* July) 638*

Rate of disappearance of the eastern equine encephalomyelitis virus from the blood of rabbits following the injection of India ink. (*Kempf, Pierce and Soule:* May) . . . . . 453†

Red blood cell volume, total and circulating, as determined with radioactive iron. (*Hahn:* May) . . . . . 447†

Relation of age to the susceptibility of the erythrocyte to hypotonic saline solution. (*Cruz:* May) . . . . . 442†

Relation of the "myocardial reticulocyte" to the Aschoff nodule. (*Clawson:* July) 597*

Relation of the pancreas to the celiac syndrome. (*Farber and Maddock:* May) . . . . . 445†

Relative susceptibility of the synaptic terminals and of the perikaryon to arrest of the circulation of the brain. (*Kabat and Schadewald:* November) 833

Renal arteries — Disuse atrophy of . . . (*Bell:* July) 614*

Renal biopsies from hypertensive patients. (*Castleman, Smithwick and Palmer:* July) 617*

Renal tumors — Functional structures in . . . (*Schiller:* July) . . 622*

Reticulum cell sarcoma of lymph nodes. (*Warren and Picena:* May) 385

Retinoblastoma — The histogenesis of glioma retinae. Report of early case with review of literature. (*Ch'in:* November) . . . 813

Rhabdomyomatosis of the heart in a guinea pig. (*Hueper:* January) 121

Rhachischisis — Anterior and posterior . . . (*Dodds:* November) . 861

Roentgen rays — Comparative experimental studies of 200 kilovolt and 1000 kilovolt . . . III. The biologic effect on the skin of the albino rat. (*Gall, Lingley and Hilcken:* May) 319

—— Pathogenesis of intestinal radiation lesions. (*Friedman and Warren:* May) . . . . . 446†

Role of potassium in the survival time after bilateral nephrectomy. (*Durlacher, Darrow and Winternitz:* July) 614*

Scorbutus — The detection of mild or subclinical scurvy. (*Rinehart:* May) . . . . . 461†

Sex hormones and lymphomatosis of fowls. (*Marine and Rosen:* May) . . . . . 456†

Shock — Certain physiological differences between . . . and hemorrhage. (*Morgan, Lieber and McGrew:* July) 604*

—— Electric . . .: importance of path, distribution and density in determining symptoms and pathology. (*Alexander and Weeks:* July) 601*

—— Morphologic changes in experimental . . . (*Lieber and Morgan:* July) 607*

——: plasma protein building in emergencies as influenced by intravenous digests. (*Whipple:* July) 609*

—— Specific therapeutic . . . —the Hugh Young reaction. (*MacNeal:* July) 600*

—— Studies on the blood histamine in rabbits during hemorrhage, . . . produced by manipulation of the intestines, and following the subcutaneous injection of histamine. (*Rose and Browne:* July) . 606*

—— The leukocytic response in experimental . . . (*Curphey and Ponder:* July) 602*

—— The treatment of . . . by the intravenous administration of nonhematogenous macromolecular substances. (*Hueper, Martin and Thompson:* July) 608*

—— The vascular and cellular dynamics of . . . (*Moon:* July) . . 610*

Sickle cell anemia — Necrosis of the bone marrow with fat embolism in . . . (*Wade and Stevenson:* January) 47

Significance of glucose and non-glucose-reducing substances in postmortem blood. (*Hill:* May) . . . . . 449†

Silicosis — Cavities in the silicotic lung. A pathological study with clinical correlation. (*Vorwald:* September) 709

Skin — Histologic changes in the . . . of mice following radiation from mercury arc. (*Grady, Blum and Kirby-Smith:* May) . . . 446†

Soluble antigen in lymphogranuloma venereum. (*Shaffer and Rake:* May) . . . . . 464†

Some factors in the development, localization and reabsorption of experimental amyloidosis in the rabbit. (*Dick and Leiter:* September) 741

Some pathological aspects of human malaria. (*Cannon:* July) . 580*

Specific lesions of the small intestines in congenital syphilis. Two additional cases. (*Pearson and Palik:* July) 637*

Specific therapeutic shock—The Hugh Young reaction. (*MacNeal:* July) 600*

Sphincter of Oddi — The effect of atropine and pilocarpine upon the . . . in human subjects. (*Bergh:* May) . . . . . 439†

Spina bifida — Foreign body giant cell granuloma of the spinal cord associated with . . . (*Lichtenstein and Kirshbaum:* November) . 873

Spread of tubercle bacilli by sputum, blood and lymph in pulmonary tuberculosis. (*Long and Faust:* September) 697

Stilbestrol — Testicular tumors in mice injected with ... (*Shimkin and Grady:* May) . . . . . 465†

Streptococci — The cytologic response of rats and mice to a strain of greening ... (*Gross, Cooper and Phillips:* May) 377

Structure of bacteria as shown by the electron microscope. (*Mudd, Anderson, Polevitsky and Morton:* July) 576*

Structure of the small cerebral arteries in hypertension. (*Baker:* January) 39

Studies in melanuria. (*Rothman:* May) . . . . . 463†

Studies of cartilage: I. Some effects of media pH 4-12 on the composition of cartilage. (*Hass and Garthwaite:* May) . . . . 448†

Studies of neutrophilic maturity following injection of fractions of sterile exudates (rabbit). (*Reifenstein:* July) 641*

Studies of the potentialities of normal and pathological human monocytes *in vitro.* (*Houghton:* May) . . . . . 450†

Studies on insulin-allergy. (*Cannon and Marshall:* May) . . . 442†

Studies on the blood histamine in rabbits during hemorrhage, shock produced by manipulation of the intestines, and following the subcutaneous injection of histamine. (*Rose and Browne:* July) . . 606*

Studies on the intravenous administration of bovine plasma to man. (*Kremen, Hall, Koschnitzke, Stevens and Wangensteen:* May) . . . . . 454†

Studies on leukocytosis. I. Hourly leukocyte variations of normal rabbits. (*Reifenstein, Ferguson and Weiskotten:* March) . . 219

Studies on leukocytosis. II. Neutrophilic leukocytosis following intravenous injection of supernatant fluid from a sterile exudate (rabbit). (*Reifenstein, Ferguson and Weiskotten:* March) . . 233

Studies on the relation of "neurotropic" streptococci to poliomyelitis and its virus. (*Rosenow:* May) . . . . . 462†

Study of chick-embryo-adapted rabies virus. (*Dawson:* March) 177

Study of latent lesions of coccidioidomycosis correlated with coccidioidin skin tests. (*Butt and Hoffman:* July) 579*

Study of the relationship between the virus of influenza A and filterable components of normal lungs. (*Chambers and Henle:* May) . . . . . 442†

Sulfapyridine — Glomerulonephritis of rats following the administration of ... (*Gross, Cooper and Morningstar:* July) . . . 634*

Sulfathiazole — Effects of the continued administration of ... and sulfapyridine to monkeys. (*Climenko and Wright:* July) . . 633*

Syphilis — Specific lesions of the small intestines in congenital ... Two additional cases. (*Pearson and Palik:* July) 637*

Teeth — Changes in the incisor ... of albino rats with vitamin A deficiency and the effects of replacement therapy. (*Schour, Hoffman and Smith:* July) 529

Temporomandibular joint — Osteo-arthritis deformans of the ... (*Bauer:* January) 129

Testicle extracts — Central nervous system irritation following injection of ... (*Winternitz, Mylon and Katzenstein:* July) . . 642*

Testicular tumors in mice injected with stilbestrol. (*Shimkin and Grady:* May) . . . . . 465†

Thrombosis — Coagulation time of the blood and mural vascular lesions as determinants of . . . (*Katzenstein, Winternitz and Mylon:* July) 594*

Thyroid — A rare malignant tumor of the . . . with postmortem findings. (*Polayes:* July) 638*

Thyroid gland — Exogenous tumors of the . . . (*Mayo and Schlicke:* March) 283

Tissue reactions to Blastomyces dematitidis and to its phosphatide and polysaccharide fractions in animals. (*Baker:* May) . . . 437†

Titration of traces of antibody: a technic using maximal serum proportions with secondary induction of aggregation. (*Lund:* July) 636*

Treatment of experimental tuberculosis with promin (sodium salt of P.P′diamino-diphenyl-sulfone-N,N′-dextrose sulfonate). (*Feldman, Hinshaw and Moses:* July) 578*

Treatment of shock by the intravenous administration of non-hematogenous macromolecular substances. (*Hueper, Martin and Thompson:* July) 608*

Treatment of spontaneous breast adenocarcinomas in mice with extracts of spleen or yeast. (*Lewisohn, Leuchtenberger, Leuchtenberger and Laszlo:* March) 251

Tribute to Dr. H. Gideon Wells. (*Luckhardt:* September) . . 643

Tuberculosis — Certain specific and immunopathologic features of . . . (*Corper:* September) 681

—— Environmental factors influencing fever in pulmonary . . .: a statistical study. (*Howe and Mayne:* July) 635*

—— Experimental ocular . . . in normal and immunized rabbits. (*Angevine and Huntington:* March) 155

—— Method for titrating virulence of tubercle bacilli in mice. (*Gunn and Sheehy:* May) . . . . . 447†

—— The behavior of cellular proteinases (cathepsins) in experimental . . . of rabbits. (*Weiss:* May) . . . . . 468†

—— The correlation between anatomical changes and the allergic state in tuberculous guinea pigs. (*Woodruff, Willis and Kelly:* July) 575*

—— The fate of tubercle bacilli phagocyted *in vivo* and *in vitro* by mononuclears derived from normal and immunized rabbits. (*Lurie:* July) 636*

—— The present incidence of tuberculous infection. (*Carnes:* July) 632*

—— The spread of tubercle bacilli by sputum, blood and lymph in pulmonary . . . (*Long and Faust:* September) 697

—— The treatment of experimental . . . with promin (sodium salt of P.P′ diamino-diphenyl-sulfone-N.N′-dextrose sulfonate). (*Feldman, Hinshaw and Moses:* July) 578*

Tumors — Mesodermal mixed . . . of the body of the uterus. (*Liebow and Tennant:* January) 1

Unilateral renal atrophy and hypertension. (*Baggenstoss and Barker:* July) 630*

Uranium nitrate — Acute necrotizing arteritis, aortitis, and auriculitis following . . . injury in dogs with altered plasma proteins. (*Holman:* May, 450†; May) 359

Uremia and pericarditis. Findings as they relate to hypertension. (*Baldauf and Ingersoll:* July) 615*

Uterus — Mesodermal mixed tumors of the body of the . . . (*Liebow and Tennant:* January) 1

—— The intrinsic nerves of the immature human . . . (*Brown and Hirsch:* September) 731

Vaccinia — The influence of the concentration of virus particles on infection with . . . (*Sprunt:* May) . . . . . 466†

—— The L-S soluble antigen of . . . (*Shedlovsky and Smadel:* May) 464†

Variation in the composition of gallstones simultaneously formed in the gallbladder. (*Phemister and Aronson:* September) . . 673

Vascular and cellular dynamics of shock. (*Moon:* July) . . . 610*

Viruses — Diffusion of some animal . . . (*Bourdillon:* May) . . . 440†

—— The electron micrography of purified . . . (*Stanley and Anderson:* July) 576*

Visceral lesions in infectious polyneuritis (infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome, Landry's paralysis). (*Sabin and Aring:* July) 469

Viscosity — Alterations in nuclear . . . during experimental carcinogenesis determined by ultracentrifugation. (*Cowdry and Paletta:* May) 335

Vitamin A — Changes in the incisor teeth of albino rats with . . . deficiency and the effects of replacement therapy. (*Schour, Hoffman and Smith:* July) 529

—— The distribution of . . . in ovaries and ovarian tumors. (*Popper and Ragins:* July) 587*

Vitamin A deficiency and the central nervous system. (*Wolbach and Bessey:* July) 586*

Vitamin B_1 deficiency of foxes produced by feeding whole fish. (*Green:* July) 588*

Vitamin E deficiency — Muscular dystrophy in biliary fistula dogs; possible relationship to . . . (*Brinkhous and Warner:* January) . 81

Vitamin K — Effect of pancreatic achylia on . . . absorption and prothrombin time. (*Sproul and Sanders:* July) 587*

Walker 256 tumor — Effect of glycogen on growth of . . . in rats. (*Ball:* May) . . . . . 438†

Weight of the normal heart in adult males. (*Rosahn:* July) . . 595*

Wells, H. Gideon — Tribute to Dr. . . . (*Luckhardt:* September) . 643

Whooping cough — The age factor in active immunization against . . . (*Sauer:* September) 719
